

WATER/WASTEWATER CONNECTIONS NOW AVAILABLE

Effective immediately (7/28/20), HVLCSD is no longer restricted from selling water/wastewater connections. We can now sell connections into our water/wastewater infrastructure.

Please refer to this year's updated Misc. Fees & Charges Brochure for new connection and capacity fees. New capacity charges and connection fees were adopted by Resolution on 7/21/2020 (Resolution 2020-06), and are reflected in our brochure located [here](#).

We are happy to accommodate your requests on a first come-first served basis. Please note, while our administration lobby does remain closed as a protective measure against the COVID-19 threat, we are still available to accommodate your request via telephone. We ask for your patience as we continue to operate with limited staff in the field as well, and know that we will make time to locate and inspect your connections just as soon as we can.

This is indeed a very favorable and long-awaited outcome that could not have happened without the tireless dedication and perseverance of your District staff. We are working hard to uphold our motto, "...to provide, maintain and protect our community's water". We are pleased to be able to "provide" water/wastewater service to you again.
