

RESOLUTION NO. 2013-07

RESOLUTION OF THE HIDDEN VALLEY LAKE COMMUNITY SERVICES DISTRICT AGREEING TO PARTICIPATE IN THE WATER BOND COALITION, SUPPORTING THE ACTIVITIES OF THE COALITION, ENDORSING EFFORTS OF THE COALITION TO ADVOCATE FOR THE FAIR AND EQUITABLE DISTRIBUTION OF STATE WATER BOND FUNDS FOR PROJECTS THAT WILL BENEFIT THE HIDDEN VALLEY LAKE COMMUNITY SERVICES DISTRICT AND OTHER ENTITIES THROUGHOUT NORTHERN AND COASTAL CALIFORNIA, AND DESIGNATING ROLAND SANFORD AS THE OFFICIAL REPRESENTATIVE FOR THE HIDDEN VALLEY LAKE COMMUNITY SERVICES DISTRICT TO THE WATER BOND COALITION.

WHEREAS, in the past 10 years, the California electorate has approved Propositions 50, 84 and 1E that have provided more than \$12 billion for water-related projects in California; and

WHEREAS, an additional water bond measure is now being developed and if approved by the voters, would provide additional funding for the planning and implementation of water-related programs and projects in California; and

WHEREAS, the Hidden Valley Lake Community Services District took an active role in the creation of the Northern and Coastal California Water Bond Coalition in 2002, a diverse network of 220 cities, counties and special districts from 34 counties that worked to support the equitable distribution of state bond funds and secure grant funds for drinking water, wastewater, fisheries, wetlands, water reuse, non-point source and flood protection projects; and

WHEREAS, the development of a regional coalition to organize and promote local and regional projects for funding has proven to be effective in obtaining funding from these bond measures; and

WHEREAS, the Hidden Valley Lake Community Services District has identified over 12 million dollars in unmet funding needs for high priority projects that will increase water reuse, enhance fisheries, and improve water supply reliability and security; and

WHEREAS, there is a tremendous need for improvements in California's diverse water system and cities, counties, and local and regional water supply, flood control and sanitation agencies across the state are facing significant challenges including aging infrastructure, more challenging regulatory compliance standards, changes in climate that impact public safety and water supply reliability, and environmental impacts that could increase costs or reduce water availability; and

WHEREAS, existing state water infrastructure bond funds meant to help address these challenges will soon be fully expended and a new commitment of significant state funding to assist local and regional water management projects is necessary to assure water future supply reliability; and

WHEREAS, the Water Bond Coalition supports new investment in regional competitive grant programs that distribute funds equitably across the state – in acknowledgement of the importance of source watersheds as well as population centers – to achieve any of the following objectives:

- Integrated, multi-agency approaches to water management
- Improved protection of wildlife, fisheries and watersheds to reduce conflicts with water management efforts
- Improved water supply reliability
